

Renew Sweetwaters

The definition of *renew* reads: to restore or replenish; to begin again; to recommence.

We all need a little renewal in our lives. It can be as simple as finding the first bloom in early Spring, the renewal of an old friendship, or a new beginning. We designed Renew during a very difficult time, in the middle of the pandemic. It renewed our spirit, and we hope that this collection will do the same for you - give you hope for the future.

As always, we include text in our collections, and our favorite phrase this time is - *There's always sunshine after the rain*. Whatever season of life you're in, and whatever renewal you need, we hope you find inspiration in those words.
