

# XOXO

BY APRIL ROSENTHAL OF *prairie grass patterns*

Watching my teens venture into the world of crushes and flirting makes me realize just how much has changed since I was younger--and how much has stayed the same. Gone are the days of waiting next to the family phone, replaced by heart emojis and instant communication from anywhere you may find yourself. But the butterflies feel the same, and finding someone to love is just as lovely as it has always been. XOXO is my tribute to those awkward first conversations, brave dance invites, and if you're lucky--the true love that booms after those moments and can last a lifetime. I met my sweetheart/husband when I was just 15--the same age my twins are now--so this collection makes me a bit nostalgic. I hope it brings fond recollections for you, too.

With 28 prints and a coordinating project panel, you will find that celebrating love just got a whole lot easier and more stylish. Mwah!

xoxo April
